Dear Irene,

Wellington College is a co-educational independent boarding and day school for girls and boys in Berkshire. We aim to provide a unique opportunity in the breadth and depth of education we offer, which goes beyond academic success into every sphere of life. Students are stretched intellectually, culturally, physically, socially and spiritually.

We have worked with Future Foundations Training Ltd for the past year and have found them to be extremely effective at inspiring our students. They have run workshops and activities for 150 of our lower sixth students. We have also worked in partnership with them to deliver a Summer Residential for 160 students from across England from very disadvantaged backgrounds. From January 2010 Future Foundations will be running Leadership Training entitled "The Social Apprentice" programme for our Fifth Form and Sixth Form, which encourages students to make a difference in the community (at a local, national or international level) whilst developing and practising their enterprise skills.

Here at Wellington College, we are very committed to raising our students' knowledge of enterprise and encouraging young people to be more involved in their local community through enterprise. We have asked Future Foundations to teach our young people the skills they will need to achieve this and to prepare them for the future world of work. Whilst working with Future Foundations we have been extremely impressed by their passion and love for making a difference in young people and their ability to inspire them to think positively about their futures.

Yours sincerely,

Katy Granville-Chapman
